UPDATE - SUPPLY CHAIN STABILITY AND THE COVID-19 VIRUS

To Our Valued Customers, Suppliers and Friends:

I wanted to update you since my last correspondence on March 13, 2020. **I am happy to report that SHECO Industries (Southern Heat Exchanger, Worldwide Exchangers, Worldwide Air Coolers) is not experiencing disruptions in material supply, production, lead time, or delivery at this time.** Manufacturing operations are continuing in all four (4) of our plants and all office activities continue either on site or remotely. We continue to work diligently on contingency planning so that, in the event disruptions do arise, we are able to maintain as much of our normal operations as possible.

We are closely monitoring the situation and will be following guidance from governmental and public health authorities to ensure we take appropriate actions to protect our employees, customers, vendors, and the communities in which we have operations. We are currently operating at Level 3 of our COVID-19 Response Plan which you should have received a copy of earlier this week. If you want a copy, please reach out to your SHECO Industries representative or visit our LinkedIn page.

We remain committed to providing first class customer service in the face of these challenges. Please feel free to contact us if you have any questions, comments, or concerns.

Sincerely, your partners at:

Bob Giammaruti
Chief Executive Officer
